

Ancient Egyptian Pyramid Pictures

When we visited Egypt, we stayed for a while next to the pyramids in Giza. Here's a picture from the balcony.

You can find out more here: <https://www.bbc.co.uk/bitesize/clips/z849wmn> and here: <http://www.ancientegypt.co.uk/pyramids/home.html>

We tried to copy the view with cheese triangles.... But I don't think we got the sizes right.

Your Challenge:

Can you find things around your house to make the shape of the three large pyramids at Giza?
