## Adding a Member

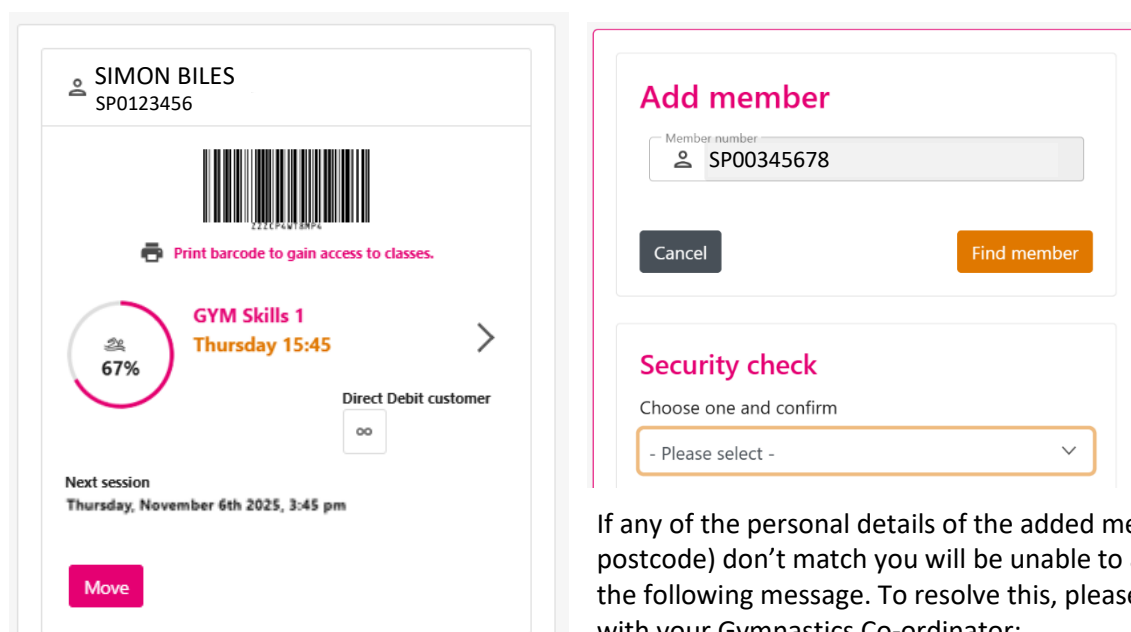

You may wish to add another member to your account i.e. sibling. This lets you manage all accounts under a single log-in; members can only be added if they share the same personal details i.e. home address/email address.

To add a member, select the  button at the bottom left of your screen

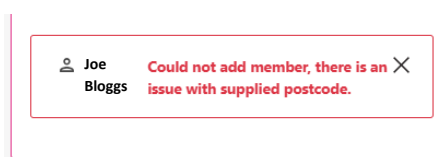

On the right, add the member number (Card ID) or full name of your additional member and select

You will then be asked to complete the Security Check (this is to confirm either the DOB or postcode); once completed, the new member name will be added to your account, and you can track the progress/view the class details

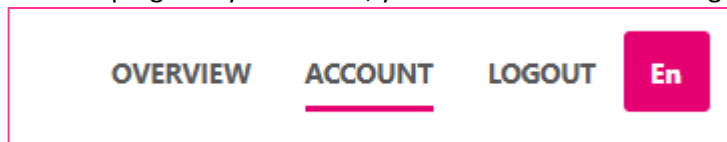

If any of the personal details of the added member (DOB or postcode) don't match you will be unable to add and you may see the following message. To resolve this, please update your details with your Gymnastics Co-ordinator;
