

Through the range of learning opportunities under the Glasgow's Learning brand, children, young people, adults and families will have access to high quality learning.

Glasgow's Learning will work in partnership to promote opportunities, assess need and remove barriers so that learners can benefit from a wide range of courses across the city to help *learners* achieve their life goals and improve their life circumstances.

All Glasgow's Learning Partners will promote and adhere to the national CLD Values of:

- Self-determination: respecting the individual and valuing the right of people to make their own choices.
- Inclusion: valuing equality of both opportunity and outcome, and challenging discriminatory practice.
- Empowerment: increasing the ability of individuals and groups to influence issues that affect them and their communities through individual and/or collective action.
- Working collaboratively: maximising collaborative working relationships in partnerships between the many agencies which contribute to CLD, including collaborative work with participants, learners and communities.
- Promoting learning as a lifelong and life-wide activity: ensuring that individuals are aware of a range of learning opportunities and are able to access relevant options at any stage of their life.
